Bernard A Barton, Jr., is the Chief Information Officer (CIO) for the Library of Congress serving as the primary advisor to the Librarian of Congress on all information technology matters as well as a voting member of the Library's Executive Committee.

As CIO, Mr. Barton is the senior information technology leader for the Library. He is responsible for the Library's information technology; strategy, operations and alignment with the Library's mission and objectives. He establishes and enforces unified Library standards for IT resource management, policies, programs and activities for evaluating the quality, effectiveness and use of all agency systems and processes to meet the program and administrative needs of the Library and its stakeholders.

Prior to his position with the Library Mr. Barton served as Deputy Administrator and Chief Information Officer of the Defense Technical Information Center (DTIC). He was responsible for administering and implementing DTIC's mission activities to disseminate research and engineering technical information across the Department of Defense (DoD) and with DoD partners in industry and academia. DTIC is the largest resource for DoD-funded science, technical, engineering, and business-related information available.

Prior to his service at DTIC, Mr. Barton worked as a Department of the Army civilian for the North Carolina National Guard in Raleigh, NC in positions of increasing responsibility ultimately serving as the Deputy CIO/J6. He managed the design, planning, implementation, and testing of disaster recovery and continuity of operations capabilities for the agency.

Mr. Barton graduated from Charleston Southern University with a major in Management Information Systems and minor in Aerospace Studies. He is also a graduate of the Federal Executive Institute's-Leadership for a Democratic Society.
